Kycon Introduces Low-Profile Vertical USB Type-C Power Connector

Morgan Hill, CA – *Kycon, Inc.* has added a vertical-mount USB Type-C receptacle to its connector portfolio. The new 6-pin, power-only connector is a lower-cost, non-sealed version of Kycon's IP67-rated KUSBV67X-TH-CS-6-BTR, intended for designs that don't require ingress protection. At just 6.85 mm tall, it gives engineers a compact option where board space and height are tight.

The connector is built for automated production. It ships on tape and reel with a pickup cap for pick-and-place assembly and can be reflow soldered (pin-in-paste) or wave soldered. It also complies with RoHS and REACH requirements.

Product Highlights:

- Power-only USB Type-C receptacle
- Vertical mount, 6 pins
- Low 6.85 mm profile
- Supplied on tape and reel with pickup cap
- Reflow (pin-in-paste) or wave solder compatible
- RoHS and REACH compliant

Typical Uses:

- Consumer devices such as laptops, smartphones and tablets
- Industrial equipment
- Power delivery and charging circuits

Ordering Information:

KUSBVX-TH-CS-6-BTR USB TYPE C RECEPTACLE VERTICAL TH 6 PIN BLK RoHS

Samples and pricing are available from Kycon on request.
