Kycon expands Audio Jack Line

Morgan Hill, CA – Kycon has added three new audio jacks to their already expansive product line. The STX-35061, STX-353E7A, and STX-353K7A (Vertical) series are 3.5mm, 4-pole audio jacks that are suited for AV equipment and audio devices that require 4 circuits. The low-profile design makes them an ideal solution for smaller and thinner spaces while robust, through-hole mounting keeps the connector secure to the PCB. The STX-35061 series can withstand a high temperature wave solder process while the STX-353E7A and STX-353K7A series are reflow compatible and halogen free.

Features

- 3.5 mm
- 4 pole
- Through Hole
- Low Profile
- Vertical option
- Switches

Part Numbers:

STX-35061-3T 3.5MM AUDIO JACK, 4-POLE W/ TIP SWITCH
